2012 And The Galactic Center

Starting in 2012, for the first time in almost 26,000 years, our sun will be most closely aligned to the Galactic Center. This Galactic Alignment, which began with the Harmonic Convergence in 1987 and will conclude in 2023, presents a thirty-six-year window of opportunity for humanity to participate in the creation of a new era of expanded consciousness.

2012 and the Galactic Center: The Return of the Great ...

In 2012, for the first time in almost 26,000 years, our sun will be most closely aligned to the Galactic Center. This Galactic Alignment, which began with the Harmonic Convergence in 1987 and will conclude in 2023, presents a thirty-six-year window of opportunity for humanity to participate in the creation of a new era of expanded consciousness.

2012 and the Galactic Center: The Return of the Great ...

This is an extraordinary time in our planet's history. In 2012, for the first time in 26,000 years, our sun will be most closely aligned to the Galactic Center, known as the Heart of the Great Mother. This alignment heralds in a rebirth of the divine feminine represented by the qualities of intuition, creativity and renewal.

2012 and the Galactic Center: Return of the Great Mother ...

Position C is "era-2012", when the December solstice sun has converged, as a result of the precession of the equinoxes, with the exact center-line of the Milky Way (the Galactic equator) Notice that the place of alignment is where the 'nuclear bulge' of the Galactic Center is located.

What is the Galactic Alignment in 2012?

The Mayans are popularly known for the 2012 phenomenon, but in this article, I want us to look at what they believed about the nature of the galactic center. The ancient Mayans called the galactic center "Hunab Ku" which means "mother womb" and they taught that it was the source of the stars and the Sun in our Milky Way galaxy.

What the Mayans Had to Say About the Galactic Center ...

In 2012, for the first time in almost 26,000 years, our sun will be most closely aligned to the Galactic Center. This Alignment, which began with the Harmonic Convergence in 1987 and will conclude in 2023, presents a thirty-six-year window of opportunity for humanity to participate in the creation of a new era of expanded consciousness.

2012 and the Galactic Center: The Return of the Great ...

So, in a general sense we can also say that the alignment in 2012 is an alignment between the December solstice sun and the Galactic Center. However, since the nuclear bulge is quite large, this definition is not as precise as saying "the alignment of the December solstice sun with the Galactic equator", which occurs in the range 1980 - 2016.

What is the Galactic Alignment?

From August 7 to August 21, the south node of the moon will be aligned with the Galactic Center at 27 degrees of Sagittarius, challenging our conditioned modes of thinking and prompting us to question fallacies inherent in dogmatism. A rapid expansion in consciousness is possible, but for exactly that reason, it won't be smooth sailing.

Cosmic Cacophony: The South Node Conjunct the Galactic Center

The Galactic Center (or Galactic Centre) is the rotational center of the Milky Way galaxy; it is a supermassive black hole of 4.100 ± 0.034 million solar masses which powers the compact radio source Sagittarius A*. It is 8.2 ± 0.4 kiloparsecs ($26,700 \pm 1,300$ ly) away from Earth in the direction of the constellations Sagittarius, Ophiuchus, and Scorpius where the Milky Way appears brightest.
