Logarithmic Earthquake Project: An Algebra 2 Project with Real Applications — Tanisha Fitzgerald-Williams & Beverly Heigre (Notre Dame High School) The Big Take-Away = “Have students view videos of earthquake damage and do their own research on Richter Scale, before formal presentation of calculating Magnitude difference with Logarithms.”

Algebra 2 | The Math Projects Journal

In algebra 2, students learn about the way we use equations to graph points, lines, and curves. This project will help students work in small groups to put graphing to good use. Have your students...

Algebra 2 Projects | Study.com

In algebra, multiplying binomials is easier if you recognize their patterns. You multiply the sum and difference of binomials and multiply by squaring and cubing to find some of the special products in algebra. See if you can spot the patterns in these equations: Sum and difference: (a + b)(a - b) = a² - b². Binomial squared: (a + b)² ...
