The curriculum is intended for research support staff/volunteers who have a role in the conduct of research, but who have received little to no formal training in this area. The primary goal is for learners to develop an understanding of basic research concepts and appreciate the importance of conducting research in keeping with an approved plan.

Basic Research Concepts (BRC): Introduction | ORI - The ...

Applied research is a methodology used to solve a specific, practical issue affecting an individual or group. This scientific method of study and research is used in business, medicine, and education in order to find solutions that may improve health, solve scientific problems or develop new technology. Examples of applied research topics will show you how this method can be used to address everyday problems.
