Promontory forts, commonly known in Cornwall as cliff castles, are coastal equivalents of the hill forts and can often be dated to the same period. Cornwall is a Celtic nation heavily influenced by the sea. There are many examples of promontory forts throughout the coastal areas of the Celtic lands, from the northern islands of Scotland, Ireland, Isle of Man, Wales, Cornwall, Brittany, Galicia and Asturias.

The Mystery and Legend of Celtic Hill and Promontory Forts ...

The Celtic circular wall of Otzenhausen is one of the biggest fortifications the Celts ever constructed. It was built by Celts of the Treveri tribe, who lived in the region north of the fort. The fort is located on top of the Dollberg , a hill near Otzenhausen in Germany , about 695 m above sea level.

Celtic warfare - Wikipedia

A hillfort is a type of earthworks used as a fortified refuge or defended settlement, located to exploit a rise in elevation for defensive advantage. They are typically European and of the Bronze and Iron Ages. Some were used in the post-Roman period. The fortification usually follows the contours of a hill, consisting of one or more lines of earthworks, with stockades or defensive walls, and external ditches. Hillforts developed in the Late Bronze and Early Iron Age, roughly the start of the fi

Hillfort - Wikipedia

Roquepertuse has a fascinating history that includes an Iron Age hillfort and a Celtic community and shrine, where early forms of barley beer were made. The hillfort dates to ca. 300 BC, with a fortification wall enclosing some 1300 square meters; its religious connotations including this two-headed god, a forerunner of the Roman god Janus.

Hillforts: Ancient Fortresses in Iron Age Europe

The Celtic hill fort of Otzenhausen is one of the biggest fortifications the Celts ever constructed. It was built by Gauls of the Treveri tribe, who lived in the region north of the fort. The fort is located on top of the Dollberg, a hill near Otzenhausen in Germany, about 695 m above sea level. The only visible remains are two circular earth ramparts, covered with stones.

Hillfort of Otzenhausen - Wikipedia

The time of the "Celtic conversion" of Britain saw a huge growth in the number of hill forts throughout the region. These were often small ditch and bank combinations encircling defensible hilltops. Some are small enough that they were of no practical use for more than an individual family, though over time many larger forts were built.
