## Hp Document Viewer Activex Error - mail.trempealeau.net

Thank you for your response. I was able to get the ActiveX to install. I am not really sure what I did to make it work since I was doing just about everything I could to enable the Active X controls and also to try and turn off the UAC. The UAC did not turn off simply by the normal mechanism in control panel.

After uninstalling .net framework 1.1 - I uninstalled & reinstalled the full feature suite & now the Document viewer is working. Earlier today after installing the FFS Windows immediately installed .net framework 1.1 & two updates. Thought it a little curious @ the time that those updates would come right after installing the HP printer suite.
