Is Spinning Blood Just for Athletes? Platelet Rich Plasma ...

Blood spinning, also known as Platelet-Rich Plasma therapy, is a "treatment to help musculoskeletal issues," according to Dr. Brian Halpern, Sports Medicine Physician at the Hospital for Special Surgery in New York. Dr. Halpern says that it is best used for chronic tendon issues, partial tears in the tendons, and, recently, has been looked at as a treatment for osteoarthritis.

What Is Blood Spinning? - HSS.edu

Blood-spinning is a medical procedure used to shorten the healing time of an injury. Small samples of the patient's blood are taken and spun in a centrifuge, allowing platelets and blood plasma to be isolated from other blood components. The platelets and plasma are then combined forming platelet-rich plasma (PRP), which has high concentrations of natural growth factors.
