### Objective-C Programming For Dummies Cheat Sheet - dummies

The Dummies books are, on the whole, excellent books and this in my opinion follows in that tradition. This provided me with a quick and easy route into understanding the platform and allowed me to put my first Objective-C app together. I realise that this book will be quickly discarded...but it did serve its purpose well.

### Amazon.com: Customer reviews: Objective-C For Dummies

This 'for Dummies' book is just one amongst many written concerning 'Objective-C' and I chose it mainly for its value-for-money and because the 'for Dummies' books' excellent reputation for depth, range, clarity and presentation style. I have encountered more detailed books concerning the C programming language but they can be difficult to read ...

### Objective-C Programming For Dummies by Neal Goldstein ...

Main Objective-C For Dummies. Objective-C For Dummies Neal Goldstein. First I have to say that I read a lot of the reviews here and thought they must have been talking about a previous edition. There is simply no way that a published book could be so packed with errors after going through the editorial process. Sadly, every word people say is true.

### Objective-C For Dummies - All Books

This is a list of tips, typos, and gotchas from switching between Objective-C and Swift. It doesn't take long to make the transition, but it's easy to get stuck on this: Types follow variable and constant names: Double myDouble in Objective-C, but myDouble: Double in Swift. Type casting uses function syntax not type syntax: (Double\*)myDouble [...]
