Portal Administration. Portal administration involves many traditional system administration activities, as well as tasks that control the behavior, content, and appearance of portals. While portal administrators do not typically develop the resources required for a portal Web site, they use those resources to build, maintain, and modify portals.

Getting Started with Portal Administration

The Business Directory is a unidirectional push from the One Talk portal down to the desk phone(s). The Business Directory is read-only; manual entries to it are not allowed. If the administrator disables the feature in the Edit Group screen, all desk phones will lose the Business Directory.
