10 Steps To Creating Your First Trading Strategy

One of the most powerful means of winning a trade is to make use and apply Forex trading strategies. The first strategy to keep in mind is that following a single system all the time is not enough for a successful trade. Each trader should know how to face all market conditions, however, is not so easy, and requires a in-depth study and understanding of economics.

All Day Trading Strategies Require Risk Management. Imagine a trader who has just taken 9 successful trades. In each trade there was a \$50 risk and \$100 profit potential. This means each trade had the potential to double the risk which is a great 2:1 profit loss ratio. The first 9 successful trades produce \$900 in profit.
